

ASX/Media Release

Cell Aquaculture appoints fish specialist consultancy INTAQT

27 September 2007: Fast-growing barramundi producing company Cell Aquaculture (ASX: CAQ) has re-appointed specialist commercial fresh-water fish aquaculture consultancy firm INTAQT to assist the company's operational ramp-up.

INTAQT (Integrated Aquaculture) is a Melbourne-based consultancy helping clients with aquaculture development, aquaculture based R&D projects and aquaculture marketing. Headed by Dr Paul Harrison & Professor Rocky de Nys the firm has been advising and assisting aquaculture companies for over 6 years.

INTAQT's consultants have depth of knowledge in science and aquaculture.

"The company's proven track record in improving the operations of listed and unlisted aquaculture companies will help ensure Cell Aquaculture minimises operational risks in its rapid expansion," said Mr Paul Hopper, executive chairman of Cell.

"The team at INTAQT is passionate about aquaculture and knows how to economically increase production and improve the operational side of the business. They are commercial in their approach and understand the business and capital imperatives of Cell's burgeoning operation.

"We are very fortunate to have INTAQT support Cell and play an important role in our aggressive growth."
